What is CPM?

CPM stands for Cost Per Thousand. It is the standard way that most advertising is priced online. As an example, say you are interested in purchasing the Big Box 300x250 that has a price of \$35 CPM. This means that 10,000 impressions in this ad placement would cost you \$350.00.

What is an impression?

Each time your ad loads on a page it delivers an impression. If you appeared in one of the ad placements that would be 1 impression.

How long will my ad run for?

We will run your ad for as long as you like. You specify the start and end dates of your campaign and we run the banner evenly throughout this period.

How often will my banner show up?

The frequency in which your banner shows up depends on a number of factors including the length of your campaign, how many impressions you have purchased and whether you are targeting a specific section(s) of the tsite. But keep in mind most advertisers' banners appear in rotation with other advertisers.
